

Please do not let LPFM stations take priority over the current FM translator service. National and regional services have tremendous value. For example, both K-LOVE AND THE CALVARY SATELLITE NETWORK serve our community with family friendly programming. If they were displaced by an LPFM BROADCASTER our community would lose two stations that are providing a positive and encouraging message that is safe for children to hear. The service provided by these stations is in the public interest because they support wholesome values that our community needs. Please do not take these positive, wholesome stations from our community. Thank you, Dr. Michael McCartney Scottsdale, AZ
